

Downtown Construction Activities

Proposed work activities for the week of January 31st, 2021

- Construction of new concrete sidewalks will continue this week along a portion of Hancock St. The crew will finish restoration to an existing foundation and finish the remaining section of concrete sidewalk. The temporary pedestrian detour remains in place between the area at Albas restaurant and the West of the Chestnut building. Business remains open during construction.
- The contractor at the Generals Bridge project will continue construction of the south barrier wall along the back of future sidewalk.
- The contractor at the General Dunford Drive project will continue installing park pavers and brick banding within the pocket park. In addition, National Grid will continue installing a new gas main and relocate an existing service through the roadway section and pocket park. Pedestrians should continue crossing the street at the crosswalk before this area along Hancock St. Temporary barriers remain in place on Hancock St for traffic re-alignment while the project is being constructed.
- At the McConville Way project the contractor will continue construction of the north and south streetscape aside the new roadway. The work this week includes, the continued installation of new planter curbs, brick pavers, mud slab, and new irrigation system. In addition, the contractor will install tree grates along Cliveden St and begin installing brick pavers. The reconstruction of the existing alley adjacent to South Shore Health and New England Comics/BAMSI will continue this week. The alley remains closed during construction. At the future pocket parks the contractor will continue construction of the water feature foundation walls, park light foundations, flagpole foundations, and park underground electrical.
- Abatement of the 100 Parking Way building will begin this week. The contractor will be setting up temporary fencing around the perimeter of the building on Parking Way and McConville Way. There will be no parking along this section of McConville Way at the building face.

(The photo on the above left shows the contractor installing waterproofing at the exterior of the new underground water feature vault. The photo on the above right shows the brick pavers adjacent to the new sidewalks at McConville Way.)
